SKAGIT COUNCIL OF GOVERNMENTS TRANSPORTATION POLICY BOARD MEETING MINUTES

August 20, 2025 Burlington City Council Chambers and Remote

Members Present

Mayor Peter Donovan, City of Mount Vernon, Chair; Mayor Bill Aslett, City of Burlington; Chris Damitio, Washington State Department of Transportation; Assessor Danny Hagen, Skagit County; Commissioner Corrin Hamburg, Skagit PUD; Mayor Marna Hanneman, Town of La Conner; Commissioner Mahlon Hull, Port of Skagit; Commissioner Lisa Janicki, Skagit County; Mayor Julia Johnson, City of Sedro-Woolley; Mayor Matt Miller, City of Anacortes; Auditor Sandy Perkins, Skagit County; and Chairman Tom Wooten, Samish Indian Nation.

STAFF PRESENT

Kevin Murphy, Executive Director; Debbie Carter, Executive Assistant and Clerk of the Board; Mark Hamilton, Senior Transportation Planner; Grant Johnson, Associate Planner; and Sarah Ruether, Associate Planner.

OTHERS PRESENT

Nineteen members of the public attended the meeting.

AGENDA

1. Call to Order: Mayor Donovan called the meeting to order at 9:00 a.m.

Roll Call: Roll was taken with a quorum present.

- 2. Written Public Comments: Mr. Johnson stated that a public comment period was held prior to the meeting and no comments were received.
- 3. Verbal Public Comments: No verbal public comments were provided at the meeting.
- 4. Consent Agenda
 - a. Approval of June 18, 2025 Transportation Policy Board Meeting Minutes: Mayor Aslett moved to approve the June 18, 2025 Transportation Policy Board Meeting Minutes. Mayor Johnson seconded the motion and it carried unanimously.

5. Action Items

a. August Regional Transportation Improvement Program Amendments: Mr. Johnson presented this action item. SCOG staff and Technical Advisory Committee (TAC) recommend approval of the following Regional Transportation Improvement Program (RTIP) amendments: Anacortes's 32nd Street at Storvik Park Pedestrian Crossing project; Skagit Transit's

315 South Third Street, Suite 100 • Mount Vernon • WA • 98273

www.scog.net

Skagit Station HVAC Repair project; and the Washington State Department of Transportation's SR 536/Skagit River Bridge Painting project. Mr. Johnson also presented one administrative modification for August, for Samish Indian Nation's SR 20/Campbell Lake Road Roundabout project, which does not require Transportation Policy Board action but was provided for informational purposes.

Chairman Wooten moved to approve the August Regional Transportation Improvement Program Amendments as presented. Mayor Miller seconded the motion and it carried unanimously.

- 6. Chair's Report: Mayor Donovan had nothing to share.
- 7. Executive Director's Report: Mr. Murphy mentioned how the Skagit region recently met our target for the current federal fiscal year. The 2025 Obligation Authority Plan included in the meeting packet went out before this information was received and next month's version of the plan will show that the target has been exceeded. Mr. Murphy thanked project sponsors, specifically Skagit Transit, for delivering on getting federal project funding obligated in a timely manner.
- 8. Roundtable and Open Topic Discussion: There was no discussion.
- 9. Next Meeting: The next meeting is September 17, 2025, at 9:00 a.m., in the Burlington City Council Chambers and remote.
- 10. Adjourned: Mayor Donovan adjourned the meeting at 9:09 a.m.

Information Items: August 7, 2025 Technical Advisory Committee Meeting Minutes; Public Participation Plan Annual Review; Skagit Transit Letters of Support; 2025 Obligation Authority Plan; and Monthly Financial Update.

ACTION ITEM 5.A. – SEPTEMBER REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM AMENDMENTS

Document History

Meeting	Date	Type of Item	Staff Contact	Phone
Technical Advisory Committee	09/04/2025	Review and Recommendation	Mark Hamilton	(360) 416-7876
Transportation Policy Board	09/17/2025	Action	Mark Hamilton	(360) 416-7876

RECOMMENDED ACTION

Skagit Council of Governments (SCOG) staff and Technical Advisory Committee recommend approval of the following Regional Transportation Improvement Program (RTIP) amendments:

- Concrete
 - School Secondary Access: this amendment revises a project already programmed in the RTIP. The amendment moves all secured funding for the project's construction phase to 2029 to maintain overall fiscal constraint in the 2025–2028 program years. SCOG staff anticipates the funding will be reprogrammed in the 2026–2031 RTIP, which is scheduled for adoption October 15, 2025.
- Skagit Council of Governments
 - SCOG Administration: this amendment revises a project already programmed in the RTIP. The amendment moves all secured funding for the project to 2029–2030 to maintain overall fiscal constraint in the 2025–2028 program years. SCOG staff anticipates the funding will be reprogrammed in the 2026–2031 RTIP, which is scheduled for adoption October 15, 2025.

FISCAL CONSTRAINT

Regional Transportation Improvement Program is fiscally constrained in the 2025–2028 program years.

PUBLIC PARTICIPATION

A public comment period began on August 29 and ended on September 5. No comments were received.

ADMINISTRATIVE MODIFICATIONS

Administrative modifications to the Regional Transportation Improvement Program do not require Transportation Policy Board approval, and are submitted to the Washington State Department of Transportation along with any amendments for the month. Administrative modifications are provided below for informational purposes only.

- Sedro-Woolley
 - John Liner Road Arterial Improvements: this administrative modification revises a project already programmed in the RTIP. Sedro-Woolley staff moved forward the right-of-way

315 South Third Street, Suite 100 • Mount Vernon • WA • 98273

www.scog.net

phase for this project earlier in 2025, placing the phase on the 2025 Obligation Authority Plan, consistent with Obligation Authority Procedures. Due to a project delay, the phase will be unable to obligate federal funding prior to the October 1, 2025 deadline, as required, so will be removed from the RTIP by SCOG staff per Obligation Authority Procedures. An appeal may be made to the Transportation Policy Board to reprogram the federal funds for this phase in the future, consistent with Obligation Authority Procedures.

ACTION ITEM 5.B. – RELEASE 2026–2031 REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM FOR PUBLIC COMMENT

Document History

Meeting	Date	Type of Item	Staff Contact	Phone
Technical Advisory Committee	09/04/2025	Discussion	Mark Hamilton	(360) 416-7876
Transportation Policy Board	09/17/2025	Action (Release)	Mark Hamilton	(360) 416-7876

RECOMMENDED ACTION

Skagit Council of Governments (SCOG) staff recommends that the Transportation Policy Board release the draft 2026–2031 Regional Transportation Improvement Program (RTIP) for public comment.

DISCUSSION

The RTIP is a compilation of projects from the various federal, state, tribal and local funding programs for all transportation agencies in the Skagit region. Projects included in the program implement the long-range transportation and transit plans for the region, help meet short-range needs and maintain the existing transportation system. SCOG prepares a new RTIP every year and provides for monthly amendments every month, except for November and December.

The primary purpose of the Regional Transportation Improvement Program is to identify and document federally funded and regionally significant projects to be included in the Statewide Transportation Improvement Program. Projects cannot obligate¹ federal funds – even when funds have already been awarded – unless they are included in the RTIP and the Statewide Transportation Improvement Program. Once the project funds have been obligated, the obligated funds will not be included in the next update to the RTIP, even if all of the funds have not been spent. For this reason, the RTIP should be viewed as a document that identifies programs and projects from the Skagit 2045 Regional Transportation Plan and prioritizes them for implementation within the constraints of a reasonable financial forecast – not a listing of federal, state and local transportation spending. SCOG produces an <u>Annual Listing of Federal Obligations</u> that documents all of the federal fund obligations that have occurred within SCOG's planning area in the previous calendar year.

The Regional Transportation Improvement Program also demonstrates the financial feasibility of the included projects. In other words, the RTIP illustrates that the projects programmed² in the next four years will not cost more than the amount of funding the region expects to be available. Section 5 includes detailed financial tables for the projects programmed in the fiscally constrained³ portion of the RTIP.

¹ Obligation occurs when the project proponent has established a formal agreement with WSDOT and the funds have been designated, or "obligated," for that particular project.

² "Programmed" means that the funding for the project is scheduled to be obligated (see footnote 1) in a particular federal fiscal year (October 1 through September 30) identified in the RTIP.

³ The fiscally constrained portion of the RTIP includes the first four years of the RTIP that are also included in the Statewide Transportation Improvement Program. The RTIP may include projects programmed to receive

KEY UPDATES

The following updates have been made to the 2026–2031 Regional Transportation Improvement Program.

PROJECT LISTS

The project list in the Regional Transportation Improvement Program has been refreshed to identify projects that are federally funded or regionally significant and have secured funding for the years 2026–2029. These projects will also be included in the Statewide Transportation Improvement Program.

Fiscally Constrained Project List

Years 2030 and 2031 fall outside of the fiscally constrained portion of the Regional Transportation Improvement Program and serve as an illustrative list of project priorities. These projects cannot be included in the Statewide Transportation Improvement Program, but act as an illustrative list of projects to be included in the fiscally constrained portion of the RTIP if additional funding becomes available or if priorities change in the Skagit region. Only projects that have been competitively selected by SCOG to receive federal funding can be programmed on the illustrative list. The illustrative list can also include planned funding that has not yet been committed to the project, for projects that have not secured 100% funding for a relevant phase.

• Illustrative Project List

REGIONALLY SIGNIFICANT PROJECTS

SCOG makes a determination on a project-by-project basis of regional significance, and programs regionally significant projects in the RTIP. Projects can be regionally significant whether or not they include federal funding.

• Determination of Regional Significance

FISCAL CONSTRAINT

The Regional Transportation Improvement Program financial feasibility table depicts the funding programmed for obligation between 2026 and 2029.

• Financial Feasibility Table

REGIONAL PROJECT SELECTIONS

For federal funds managed by SCOG, programming of project selection decisions are maintained in sixyear programming sheets. These sheets are components of the Regional Transportation Improvement Program and all projects appearing on them have been competitively selected for programming.

- Surface Transportation Block Grant Program
- Carbon Reduction Program
- Transportation Alternatives

REGIONAL PERFORMANCE TARGETS

There is a section in the Regional Transportation Improvement Program which documents SCOG's effort setting regional performance targets, in accordance with federal regulations. This target setting is part of

regionally managed funding in years five and six — such as Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives funds — but may not be fiscally constrained.

315 South Third Street, Suite 100 • Mount Vernon • WA • 98273

www.scog.net

the performance-based planning approach applied across the United States by metropolitan planning organizations, such as SCOG.

EMERGENT NEED AWARD PROCESS

A section is incorporated into the Regional Transportation Improvement Program, documenting the emergent need award process adopted by the Transportation Policy Board in April 2019.

OBLIGATION AUTHORITY PROCEDURES

Obligation authority procedures are included within the Regional Transportation Improvement Program.

Obligation Authority Procedures

POLICIES

Programming policies are included within the Regional Transportation Improvement Program to guide investment priorities.

METROPOLITAN PLANNING AREA SELF-CERTIFICATION

In accordance with 23 CFR § 450.336, the Washington State Department of Transportation (WSDOT) and the Skagit Council of Governments (SCOG), the metropolitan planning organization for the Skagit Metropolitan Planning Area, hereby certify that the metropolitan transportation planning process is being carried out in accordance with all applicable requirements including:

- 1. 23 U.S.C. 134, 49 U.S.C. 5303, and 23 CFR 450, Subpart C;
- 2. In nonattainment and maintenance areas, sections 174 and 176 (c) and (d) of the Clean Air Act, as amended (42 U.S.C. 7504, 7506 (c) and (d)) and 40 CFR part 93;
- 3. Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d-1) and 49 CFR part 21;
- 4. 49 U.S.C. 5332, prohibiting discrimination on the basis of race, color, creed, national origin, sex, or age in employment or business opportunity;
- 5. Section 1101(b) of the Fast Act (Pub. L. 114-357) and 49 CFR part 26 regarding the involvement of disadvantaged business enterprises in DOT funded projects;
- 6. 23 CFR part 230, regarding the implementation of an equal employment opportunity program on Federal and Federal-aid highway construction contracts;
- 7. The provisions of the Americans with Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) and 49 CFR parts 27, 37, 38;
- 8. The Older Americans Act, as amended (42 U.S.C. 6101), prohibiting discrimination on the basis of age in programs or activities receiving Federal financial assistance;
- 9. Section 324 of title 23 U.S.C. regarding the prohibition of discrimination based on gender;
- 10. Section 504 of the Rehabilitation Act of 1973 (29 U.S.C. 794) and 49 CFR part 27 regarding discrimination against individuals with disabilities; and
- 11. Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (2 CFR Part 200).
- 12. The MPO uses at least 2.5% of its PL funds on planning activities to increase safe and accessible options for multiple travel modes for people of all ages and abilities.

SCOG	WSDOT
Kevin Murph Executive Dir Skagit Cound	Ryan Clemens Regional Coordinator Tribal and Regional Planning Office
Date:	 Date:

1 Introduction

1.1 ABOUT SCOG

The Skagit Council of Governments is a federally designated metropolitan planning organization consisting of Skagit County, all cities and towns within Skagit County, Swinomish Indian Tribal Community, Samish Indian Nation, Skagit Transit, Skagit PUD, Port of Anacortes, Port of Skagit and Washington State Department of Transportation. SCOG leads the development of the long-range <u>Skagit 2045 Regional Transportation Plan</u> (Skagit 2045) and a medium-range regional transportation improvement program. These efforts are coordinated with the public, United States Department of Transportation, WSDOT, local elected leadership, local planners and engineers.

In addition to being a metropolitan planning organization, SCOG is also a regional transportation planning organization, as designated through Washington state's Growth Management Act. As a regional transportation planning organization, SCOG includes cities, towns, Skagit County, Skagit Transit, ports, tribes, private employer representatives and WSDOT in its planning activities. This includes preparation of a regional transportation plan, certification that countywide planning policies and local transportation elements are consistent with the plan, and development and maintenance of the six-year regional transportation improvement program.

1.2 Purpose of the Regional Transportation Improvement Program

SCOG is required by federal and state regulations to develop a regional transportation improvement program (RTIP) which spans at least four years and is updated at least every two years. SCOG updates the RTIP annually and allows amendments to the RTIP on a monthly basis, except the last two months every calendar year.

The RTIP is a compilation of projects from various federal, state and local funding programs for all transportation agencies in the Skagit region. Projects included in the program implement the long-

range transportation and transit plans for the region, help meet the short-range needs of the area, and provide for ongoing maintenance and preservation of the existing transportation system.

A primary purpose of the RTIP is to identify and document federally funded and/or regionally significant projects to be included in the Washington Statewide Transportation Improvement Program (STIP). Projects cannot obligate¹ certain federal funds — even though the funds have been awarded — unless

CONCEPTUAL IMAGE OF NEW GUEMES ELECTRIC FERRY

they are included in the RTIP and the STIP. Once the project funds have been obligated, the obligated funds will not be included in the next update to the RTIP, even if all of the funds have not been spent. For this reason, the RTIP should be viewed as a document that identifies programs and projects from the regional transportation plan and prioritizes them for implementation within the constraints of a reasonable financial forecast – not a listing of federal, state and local transportation spending. SCOG

¹ Obligation occurs when the project proponent has established a formal agreement with WSDOT and the funds have been designated, or "obligated" for that particular project.

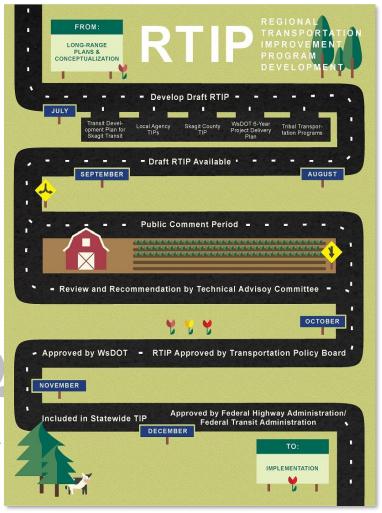

produces an <u>annual listing of federal obligations</u> that documents federal fund obligations that have occurred within the Skagit region in the previous calendar year.

The RTIP also demonstrates the financial feasibility of the included projects. In other words, the RTIP illustrates that the projects programmed² in the next four years will not cost more than the amount of

funding the region expects to be available. Section 5.2 includes a detailed financial table for the projects programmed in the fiscally constrained³ portion of the RTIP.

2 DOCUMENT PREPARATION

The RTIP is coordinated with the development of capital improvement plans, locomprehensive transportation programs, and tribal transportation improvement programs of SCOG member jurisdictions. When developing their transportation programs, member jurisdictions evaluate their transportation needs for the ensuing six-year period based on local priorities and expected funding levels available to meet those needs. Because the need for transportation improvements is often greater than the amount of funding available, the member jurisdictions prioritize their transportation needs to identify a six-year list of projects that they determine to be most important to undertake. Drafts of the transportation programs are available for the public, other agencies and internal departments to review. Member jurisdictions then make any revisions deemed necessary before adopting their comprehensive transportation programs, capital

RTIP DEVELOPMENT PROCESS

improvement plans, and tribal transportation improvement programs – indicating which projects have secured⁴ and planned funding.

Local governments, tribal governments and WSDOT then submit their programmed projects to SCOG. The RTIP is a compilation of the projects with secured federal funding or regionally significant projects that have secured state or local funding. The project list for the 2026–2031 RTIP is included in Section 4. From these projects, an assessment of region-wide financial feasibility is estimated in Section 5.

² "Programmed" means that the funding for the project is scheduled to be obligated (see footnote 1) in a particular calendar year (January 1 through December 31) identified in the RTIP.

³ The fiscally constrained portion of the RTIP includes the first four years of the RTIP that are also included in the STIP. The RTIP may include projects programmed to receive regionally managed funding in years five and six – such as from the Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives – but may not be fiscally constrained.

⁴ "Secured" means funding has been committed or is available to the project sponsor for the project, including any required match.

Submit comments on the draft 2026–2031 RTIP to:

Mark Hamilton, AICP Skagit Council of Governments 315 South Third Street, Suite 100 Mount Vernon, WA 98273 markh@scog.net

2.1 REVIEW AND APPROVAL

The draft RTIP is released to the public for review and comment in September, and is presented to the SCOG Technical Advisory Committee⁵ and Transportation Policy Board⁶ by SCOG staff. The Technical Advisory Committee recommends whether the Transportation Policy Board should or should not approve the draft RTIP. Members of the public are encouraged to provide written comments to SCOG staff. Written comments are included in meeting materials sent to the Transportation Policy Board for their consideration. The public

is also welcome to provide comments during the public comment period for the September Transportation Policy Board meeting where the draft RTIP is discussed, and for their next monthly meeting in October where RTIP adoption is considered. Opportunities for verbal comments are also provided at Transportation Policy Board meetings where the RTIP is discussed and considered for adoption.

After considering public input and the recommendation from the Technical Advisory Committee, the Transportation Policy Board decides whether to adopt the draft RTIP. After approval, the adopted RTIP is then submitted to WSDOT. WSDOT then reviews the RTIP and issues its approval by the end of November. With WSDOT approval of the RTIP, all fiscally constrained RTIP projects (Section 4.1) are included in the draft STIP. Representatives from the Federal Highway Administration (FHWA) and the Federal Transit Administration (FTA) then review the draft STIP, issuing approval in January 2026.

2.2 Public Involvement Process

The RTIP is developed in part from local comprehensive transportation programs that are compiled and adopted annually by local governments in the Skagit region. As required by state law, each local agency conducts a public involvement process in the development and review of their comprehensive transportation program. These processes vary by jurisdiction, but all culminate in a formal public hearing prior to adoption by the local gov-

erning boards.

Tribal governments follow federal reguirements for preparation of tribal improvement transportation grams prior to including projects in the RTIP. WSDOT includes projects in a 10-year list of statewide project priorities referred to as the "Project Delivery Plan", which is updated every year, and Skagit Transit includes projects in their six-year Transit Development Plan, which is adopted every year by Skagit Transit's board of directors. Both WSDOT and Skagit Transit projects in the Skagit region can be included

PLANNED SKAGIT TRANSIT MAINTENANCE, OPERATIONS AND ADMINISTRATION BASE

in the RTIP following inclusion as priorities in their own planning documents.

⁵ The Technical Advisory Committee is a SCOG committee consisting of transportation professionals who provide technical advice and recommendations to the Transportation Policy Board.

⁶ The Transportation Policy Board is a governing body of SCOG consisting of local and tribal elected leaders, a WSDOT representative, a private employer representative and state elected leaders.

In most cases, projects that have secured FHWA or FTA funding, or have secured another type of funding and are regionally significant, are included in the RTIP. The RTIP is a compilation of these projects, sourced from local comprehensive transportation programs, tribal transportation improvement programs, WSDOT's Project Delivery Plan and Skagit Transit's Transit Development Plan.

After transportation programs have been prepared and reviewed by the public, a supplementary public review process for the RTIP is also conducted. This allows the public to review and comment on the six years of medium-range transportation projects intended to implement the long-range transportation goals identified in *Skagit 2045*. Comments regarding the specifics of projects are often better directed to the project sponsors during the project planning stage. A flowchart that depicts the development of regional transportation projects from the conceptual stage to implementation and the associated opportunities for public input is hyperlinked below.

Project Planning Process Flowchart

SCOG posts notifications in the Skagit Valley Herald when the draft RTIP is available for public review. Notice is also posted on SCOG's website where the document is available to view and download. Printed copies of the draft RTIP are available from SCOG upon request.

A public comment period was held from September 17 through October 3, 2025. The final draft of the RTIP includes the submitted public comments below and will be presented to the Transportation Policy Board prior to any action taken regarding the adoption of the RTIP.

• (This will be updated following the public comment period.)

The public involvement activities and time established for public review and comments on the RTIP development process satisfy the Federal Transit Administration's Program of Projects requirements that Skagit Transit must follow.

2.3 Programming Policies

SCOG has developed policies to aid in the preparation and maintenance of the RTIP, and to assist in the effective administration of regionally managed federal grant funds. These policies are hyperlinked below.

RTIP Policies

2.4 Project Selection and Prioritization

SCOG is responsible for selecting projects for the regionally managed portion of federal Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives funding in the Skagit region. Projects selected are prioritized and incorporated into the RTIP, along with other FHWA and FTA federally funded projects, and regionally significant projects (see Section 4). SCOG has prepared a flowchart that graphically depicts the timeline for selecting projects to receive regionally managed grant funding and the associated opportunities for public input. A hyperlink to this flowchart follows.

• Regionally Managed Project Selection Timeline

SURFACE TRANSPORTATION BLOCK GRANT PROGRAM, CARBON REDUCTION PROGRAM AND TRANS-PORTATION ALTERNATIVES

SCOG receives an annual allocation of federal Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives funds from WSDOT to commit to priority projects in the Skagit region. Projects are selected by the Transportation Policy Board using a competitive

process guided by evaluation criteria, which is designed to ensure that projects are prioritized consistent with *Skagit 2045*.

SCOG programs four years of prioritized Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives projects into the RTIP and the STIP. SCOG typically programs an additional two years of projects to provide flexibility in project timelines, though this additional two years of programming can vary depending upon when calls for projects are issued by SCOG. Calls for projects are usually conducted every two years. Years five and six of the project selection serve as an illustrative list of projects that can be included in the fiscally constrained portion of the RTIP if funding becomes available (see Section 4.2). SCOG ensures that Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives projects are competitively selected to receive funding based on their ability to address priorities identified in *Skagit 2045*. The most recent formal project selection process developed to provide clarity on how projects are regionally prioritized for funding is hyperlinked below. Current programming of these three federal funding sources in the RTIP is hyperlinked as well.

- 2025 Regional Call for Projects and Project Application Form
- Projects currently programmed using Surface Transportation Block Grant Program funds
- Projects currently programmed using Carbon Reduction Program funds
- Projects currently programmed using Transportation Alternatives funds

EMERGENT NEED PROJECT SELECTION

The Transportation Policy Board approved a process to allocate additional federal funds to projects in certain emergent needs instances. Projects can only receive an emergent need award if they have been competitively selected by SCOG to receive federal funding for construction, and experience an unanticipated need during the construction phase. Emergent need allocation decisions are made on a case-by-case basis by the Transportation Policy Board.

Project Application Form

2.5 2025-2030 RTIP PROJECTS NOT INCLUDED IN THE 2026-2031 RTIP

The following projects were included in the fiscally constrained portion of the 2025–2030 RTIP, including amendments to the RTIP that added new projects, but are not included in the fiscally constrained portion of the 2026–2031 RTIP. There are various reasons why a project would no longer be programmed in the RTIP. For example, a project could be completed, underway, cancelled or delayed.

See the following table for a summary of 2025–2030 RTIP projects that are not programmed in the 2026–2031 RTIP.

AGENCY	Project Name	DESCRIPTION	Total Cost (Est.)	STATUS
Anacortes	12th Street and K Avenue Intersec- tion Improvements	Intersection improvements to address projected traffic congestion at intersection. A one-lane roundabout or signal may be included with revisions to the intersection.	\$2,504,720	Construction pending
Anacortes	32nd Street at Storvik Park Pe- destrian Crossing	The planned project involves the installation of a mid-block crosswalk at a heavily used pedestrian crossing point leading to a local park. This project includes the addition of bulb-outs to minimize crossing distance, enhance pedestrian visibility, and naturally slow down vehicle speeds by narrowing the roadway at the crossing point.	\$180,500	Construction pending
Anacortes	Q Avenue Pedes- trian Crossings	Improve pedestrian crossings at 13th Street and Q Avenue intersection and midblock crossing at Safeway entrance, east of 12th Street. Project includes: marked crosswalks and enhancements; and a paved, separated trail.	\$511,999	Construction pending
Anacortes	South Commercial Avenue Complete Streets	Rechannelization of the corridor to calm traffic by narrowing travel lanes and creating bike lanes. Replace non-compliant ADA ramps and install new ADA ramps where they don't cur- rently exist. Overlay entire width and length of project area.	\$2,874,181	Project broken into smaller projects
Burlington	SR20 Nonmotor- ized & Safety Im- provements	Road widening including stormwater improvements, utility relocation, lighting, sidewalks, bicycle wayfinding, and bike lanes.	\$3,710,248	Preliminary engi- neering underway
Mount Vernon	30th Street Improvements - 1	Rehabilitate pavement, add sidewalk, shared use path, drainage improvements, and fish passage culvert.	\$3,402,214	Funding for future phases not yet secured
Mount Vernon	Library Commons Project: Regional Transportation Supporting Ele- ments	Construction of a structured parking facility available for Skagit Station park & ride use, EV charging stations, transit, library, and community center facilities. Discretionary funds are from federal Charging and Fueling Infrastructure Program grant. Proceeds from secured TIFIA loan used to cover non-federal share requirement of CFI grant, consistent with 23 USC 603(b)(8).	\$54,746,018	Project complete
Mount Vernon	Riverside Drive Improvements - 1	Rehabilitate pavement, repair sidewalk, correct ADA deficiencies, improve sight distance, and underground overhead utilities.	\$3,673,145	Funding for future phases not yet secured
Samish Indian Nation	SR20/Campbell Lake Road - Inter- section Improve- ment	The 3-legged roundabout will improve regional mobility and safety, accommodate projected growth in the area, and improve resilience of local and regional transportation networks. Project features include: safety edge surface treatment; minimum 4-ft shoulder with fog stripe; additional lighting; bicycle wayfinding; roundabout; and traffic calming measures. Project is being done by WSDOT.	\$5,156,039	Construction pending
SCOG	SCOG Admin 2022-2025	SCOG Administration for FFY 2022-2025	\$1,222,031	Project underway

AGENCY	Project Name	DESCRIPTION	Total Cost (Est.)	Status
Sedro- Woolley	SR20/Cascade Trail West Exten- sion Phase 2A, Holtcamp Road to Hodgin Street	SR20/Cascade Trail West Extension Phase 2A, Holtcamp Road to Hodgin Street.	\$1,114,035	Construction pend- ing
Skagit County	Guemes Island Ferry Operating Cost	Capture Operational Ferry Cost: - Salary & Wages - Benefits - Fueling Cost	\$1,683,900	Project underway
Skagit County	Preventative Maintenance - Bridge Deck Re- pair (Bundle)	Mill and overlay the Decks on the following Bridges: * Structure ID 08213600 (Cascade River Bridge) * Structure ID 08009600 (F&S Grade Road - Samish River Bridge) * Struc- ture ID 08165500 (S. Skagit Hwy Pressentin Creek Bridge)	\$1,613,000	Construction pending
Skagit County	Skagit River Mar- blemount Bridge	Rehabilitate the Marblemount Bridge. Includes but not limited to strengthening, minor repairs, cleaning, and painting.	\$18,592,865	Construction underway
Skagit Transit	Construction of Ancillary Maintenance Buildings	Construction of ancillary maintenance building at Skagit Transit's Maintenance, Operations and Administration Facility.	\$317,919	Project underway
Skagit Transit	Construction of Zero Emissions Vehicle Infrastructure & Equipment Purchase	Construction of zero emissions (ZE) vehicle in- frastructure, purchase of necessary ZE vehi- cle equipment & installation at Skagit Transit's Maintenance, Operations and Administration Facility.	\$317,919	Project underway
Skagit Transit	Design Build Services - Operator Restroom Skagit Station	Design Build services for transit operator bath- room at Skagit Station.	\$108,000	Project underway
Skagit Transit	Skagit Station HVAC Repair	Repair of Skagit Station HVAC system.	\$300,000	Project underway
Skagit Transit	Skagit Transit's Maintenance Oper- ations and Admin- istration Facility Project Phase II	This project will renovate Skagit Transit's Maintenance, Operations, and Administration (MOA) Facility. The improvements include the complete buildout of transit staff offices, conference rooms, breakrooms, inventory and file storage, light and heavy-duty vehicle maintenance bays, workshops for vehicle body repair, and a parts warehouse.	\$45,185,412	Project underway
WSDOT - NW	I-5/Tributaries to Friday, Lake & Chuckanut Creeks - Fish Passage	Remove the existing fish passage barriers and replace them with fish passable structures. Note: This project is located within the boundaries of SCOG and WCOG. The amounts shown are for SCOG only.	\$82,563,024	Project underway

3 AMENDMENT & ADMINISTRATIVE MODIFICATION PROCEDURES

Transportation priorities and funding strategies change over time. As is the case every year, it is likely the project list programmed in the RTIP in October 2025 will need to be altered during calendar year 2026. Federal requirements stipulate that in most cases jurisdictions cannot utilize FHWA or FTA

federal funds on a project until it is programmed in the RTIP and STIP, even though the jurisdiction already has secured funding for that project. SCOG has developed RTIP amendment and administrative modification procedures to ensure that new projects and changes to existing projects can be included in the RTIP efficiently. These procedures are hyperlinked below.

RTIP Amendment and Administrative Modification Procedures

Refer to the following figure for differences between amendments, administrative modifications and project updates that do not require an RTIP change.

AMENDMENTS

- Adding a new project to the RTIP
- Deleting a project from the RTIP
- Any change to a project's programmed amount equaling 30% or more
- Any change to a project's programmed amount equaling \$3 million or more
- Major scope changes
- Adding a future phase to a project already programmed
- Adding federal funds to a project that is already programmed but does not yet have federal funds programmed

ADMINISTRATIVE MODIFICATIONS

- Changing the lead agency
- Adding a prior phase to a project already programmed
- Any change to a project's programmed amount equaling less than 30% and must be less than \$3 million
- Correcting typographical errors
- Making minor changes to project information (e.g. federal functional classification, improvement type, project termini or environmental type)

No Change Needed

- Moving projects, and phases of projects, within the first four years of the RTIP
- Changes to a project's federal funding source, when made as a funds management action
- Federal authorization of more/less than federal funds programmed for a project phase, up to the total federal funds amount programmed for the project
- Adjustments to a project award for project phases that already have federal authorization (does not apply to phases that have not yet received federal authorization or project phases that are closed)

COMPARISON OF RTIP ACTIONS

3.1 AMENDMENT CYCLE

Project sponsors are generally ready and willing to obligate federal funds soon after they are secured. To accommodate faster implementation of transportation projects, SCOG allows amendments to the RTIP on a monthly basis (excluding November and December). In order to ensure that sufficient time

is available for decision makers and the public to review the proposed amendment prior to formal action being taken, project sponsors must adhere to the deadlines listed in the following table.

SUBMIT REQUEST TO SCOG*	TAC REVIEW/ RECOMMENDATION	SCOG TPB Action	WSDOT REVIEW	FHWA/FTA REVIEW**	AMENDMENT INCLUDED IN STIP
12/24/2025	1/1/2026	1/21/2026†	1/16/2026	1/30/2026	2/16/2026
1/28/2026	2/5/2026	2/18/2026	2/20/2026	3/6/2026	3/20/2026
2/25/2026	3/5/2026	3/18/2026	3/20/2026	4/3/2026	4/17/2026
3/25/2026	4/2/2026	4/15/2026	4/17/2026	5/1/2026	5/15/2026
4/29/2026	5/7/2026	5/20/2026†	5/15/2026	5/29/2026	6/12/2026
5/27/2026	6/4/2026	6/17/2026	6/19/2026	7/3/2026	7/17/2026
6/24/2026	7/2/2026	7/15/2026	7/17/2026	7/31/2026	8/14/2026
7/29/2026	8/6/2026	8/19/2026	8/21/2026	9/4/2026	9/18/2026
8/26/2026	9/3/2026	9/16/2026	9/18/2026	10/2/2026	10/16/2026
9/23/2026	10/1/2026	10/21/2026†	10/16/2026	10/30/2026	11/13/2026

Notes: Meeting dates and request deadlines are subject to change.

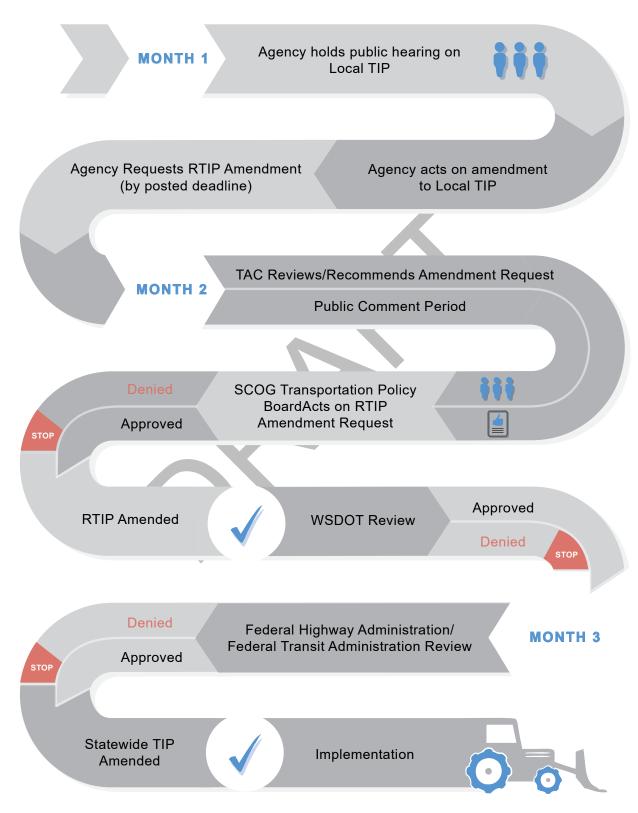

Refer to the following figure for an illustrative representation of the RTIP and STIP amendment process.

^{*}Request must include documentation of funding award and proof that project is consistent with RTIP Policy #2: Compliance with Local and Tribal Plans.

^{**}Administrative modifications do not require FHWA/FTA approval. Administrative modifications will be included in STIP at this date. †If WSDOT review deadline occurs before Transportation Policy Board action, SCOG will submit amendment to WSDOT by deadline and verify the SCOG TPB action once it occurs.

RTIP AMENDMENT PROCESS

RTIP AMENDMENT CYCLE

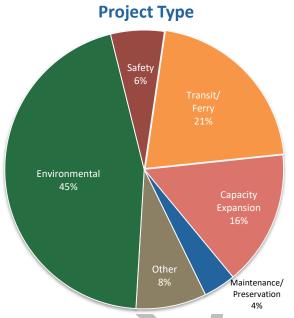

4 PROJECTS

4.1 FISCALLY CONSTRAINED PROJECTS

The 2026–2029 fiscally constrained RTIP project list includes projects that have secured FHWA or FTA federal funding, or have secured funding from another source and are also regionally significant. This project list is updated as amendments are made to the RTIP. Projects included in the four-year fiscally constrained portion of the RTIP are forwarded to WSDOT for inclusion in the STIP. Section 4.2 includes projects that have been selected to receive regionally managed Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives funds in years five and six (2030 and 2031) of the RTIP.

2026–2029 Fiscally Constrained Projects

A summary of the funding by project type in the fiscally constrained portion of the RTIP as of October 15, 2025 is presented in the figure to the left. Many transportation projects planned to occur on non-regionally significant routes are not included in the RTIP. For example, jurisdictions' repaving programs, other than WSDOT's, are not included in the RTIP.

Twenty-one percent (21%) of secured funding included in the fiscally constrained portion of the 2026–2031 RTIP is dedicated to Skagit Transit and Guemes Island Ferry projects. Forty-five percent (45%) of secured funding is committed to environmental projects designed to improve fish passage under WSDOT facilities along with a WSDOT soil-abatement project. Six percent (6%) of secured funding is devoted to safety projects, with four percent (4%) to maintenance/preserva-

tion projects – primarily WSDOT paving projects. Sixteen percent (16%) of secured funding is slated to expand capacity of the transportation system, and the remaining eight percent (8%) of secured funding is programmed to other project types – primarily WSDOT bridge-painting projects. Project funding that has not yet been secured, and all funding in 2030 and 2031, is not included in these percentages.

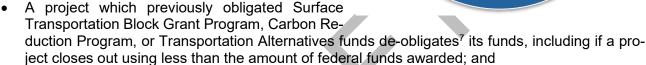

The next figure illustrates the proportion of federal, state and local funds programmed in the fiscally constrained portion of the RTIP. Fifty-eight percent (58%) of the secured funding for fiscally constrained RTIP projects is from federal sources, with twenty-nine percent (29%) from state sources. Thirteen percent (13%) of project funding is from local sources, which are commonly used as matching funds to federal grants received by project sponsors. Many transportation projects utilizing only state and/or local funds are not included in the RTIP, so are not included in this financial analysis.

4.2 ILLUSTRATIVE PRIORITIES

To ensure that SCOG has a fully programmed fouryear RTIP, SCOG typically selects projects to ensure that at least six years' worth of Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives funding is programmed. The first four years in the RTIP are fiscally constrained and included in the STIP (see Section 4.1). The additional two years' worth of programmed projects function as Illustrative Priorities if additional funding becomes available to SCOG. Examples of ways that additional funds can become available include:

If additional funds are obtained by SCOG, the projects can be moved to the fiscally constrained portion of the RTIP in the next RTIP update, or through the amendment process. Additional considerations (e.g. lower costs, project readiness) may be used in the determination of projects that will be added to the fiscally constrained portion of the RTIP from the Illustrative Priorities. The 2030–2031 Illustrative Priorities are hyperlinked below.

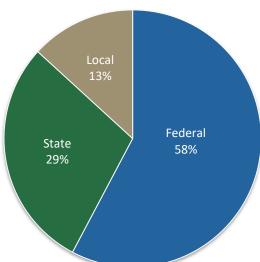

2030–2031 Illustrative Projects

4.3 REGIONALLY SIGNIFICANT PROJECTS

Regionally significant projects are projects that serve regional transportation needs on the existing or proposed regional transportation system. Per the <u>23 CFR 450.104</u> definition of a regionally significant project, examples of these types of projects include "...access to and from the area outside the region; major activity centers in the region; major planned developments such as new retail malls, sports complexes, or employment centers; or transportation terminals..." and would normally be included in modeling of SCOG's regional transportation network.

The determination of whether or not a project is regionally significant is made by SCOG in the agency's capacity as a metropolitan planning organization. Regionally significant projects are programmed in the RTIP, even if there is no federal funding associated with the project. Examples of projects determined to be regionally significant are in the following hyperlink.

RTIP Determinations of Regional Significance

Funding Source

⁷ De-obligation occurs when the project sponsor has obligated (see footnote 1) funds for a particular project and then the project is unable to move forward for some reason, or a project closes out with federal funds remaining that were not expended. The funds are essentially "returned to the pot" of regionally managed funds.

5 FINANCIAL PLAN

5.1 FISCAL CONSTRAINT

The RTIP is required to include a financial plan that demonstrates how the program of projects can be implemented. The detailed financial table located in Section 5.2 include the estimated amount of available funds, programmed funds and remaining funds by fund type for each program year. Project sponsors with projects in the RTIP have indicated that they have the financial resources available to provide matching funds to complete project phases with fully secured funding.

FINANCIAL PLANNING ASSUMPTIONS

ACCOUNTING FOR INFLATION

The project costs reported in the RTIP include an adjustment to account for annual inflation of prices. Skagit 2045 accounts for the effect of inflation scheduled in the mid- and long-range horizons. How-

ever, the process used to account for inflation on RTIP projects is left to the judgment of the project sponsors, as they have a better sense of short-term inflationary pressures on their particular projects.

FEDERAL REVENUE PROJECTIONS

Revenue projections for WSDOT state managed federal funds (e.g. National Highway Performance Program, Highway Safety Improvement Program, etc.) generally equal the amount programmed in the RTIP. Because SCOG has no control over project

Fiscal Constraint: the RTIP demonstrates that the programmed projects will not cost more than the expected amount of funding available in the first four years.

funding decisions for these fund types, only federal funds that have been secured by project sponsors are assumed to be reasonably available. For future year allocations in the RTIP, SCOG managed federal funds are assumed to be the same as regional allocations for federal fiscal year 2025.

STATE REVENUE PROJECTIONS

Several state sources of funding are identified in the RTIP that have historically been used for transportation purposes. These state projections include projects that have secured funding, including match, to fully complete a phase, as well as available funds that have not yet been secured. State funding is often used with federal funding and any required match to complete a phase of a project, or used alone without any federal funding or match.

LOCAL REVENUE PROJECTIONS

Revenue projections from local sources are funds expected to reasonably be available outside of federal and state sources. These funds are typically used as match for other funds sources, but may be higher than any required match. In addition to meeting match requirements, project sponsors will often use this category of revenues to fill a gap in a project phase and ensure fully secured funding to complete the phase.

5.2 FINANCIAL FEASIBILITY TABLE

SCOG has prepared a financial table that identifies all of the funding programmed in the fiscally constrained portion of the RTIP and documents the amount of funding that is reasonably expected to be available. The table, linked below, demonstrates that the first four years of the 2026–2031 RTIP are fiscally constrained and financially feasible. Programmed expenditures are balanced with funding reasonably expected to be made available over the programming period.

2026–2029 Financial Feasibility Table

6 REGIONAL PERFORMANCE TARGETS

SCOG is responsible for setting regional performance targets for the nationwide approach to performance-based planning. The Moving Ahead for Progress in the 21st Century Act, signed into law in 2012, introduced many new requirements for state departments of transportation, transit agencies and metropolitan planning organizations. As a metropolitan planning organization, these requirements apply to SCOG. Statewide performance targets are documented in folios on <u>WSDOT's website</u>.

The applicable federal administrations and categories of performance targets are listed below:

- Federal Transit Administration
 - Transit Asset Management Targets
 - Transit Safety Targets
- Federal Highway Administration
 - Highway Safety Targets
 - Highway Bridge Condition Targets
 - Highway Pavement Condition Targets
 - Highway Travel Time and Freight Reliability Targets

Initial regional performance targets for transit asset management were set by SCOG in June 2017 and highway safety targets were set in February 2018. For transit asset management targets, SCOG set targets for buses, other passenger vehicles, ferries, non-revenue service vehicles, administration and maintenance, as well as passenger and parking facilities. For highway safety targets, SCOG agreed to plan and program projects in the Skagit region to contribute toward the accomplishment of WSDOT statewide safety performance targets for the five safety measures – each related to fatalities and serious injuries.

Initial regional performance targets for highway bridge condition, highway pavement condition, highway travel time and freight reliability were set by SCOG in October 2018. For each of these categories, SCOG agreed to plan and program projects in the Skagit region to contribute toward the accomplishment of WSDOT statewide performance targets.

SCOG set initial regional performance targets for transit safety in November 2020. The seven transit safety performance measures are related to fatalities, injuries, safety events and system reliability.

Deadlines for target setting and related target-setting dates at SCOG are in the following table.

PERFORMANCE TARGETS CATEGORY	UPCOMING SCOG DEADLINE TO SET TARGETS	LATEST TARGETS SET BY SCOG
FTA: Transit Asset Management	N/A*	7/19/2017
FTA: Transit Safety	N/A*	11/18/2020
FHWA: Highway Safety	2/27/2026	2/19/2025
FHWA: Highway Bridge Condition	3/21/2027**	5/17/2023
FHWA: Highway Pavement Condition	3/21/2027**	5/17/2023
FHWA: Highway Travel Time and Freight Reliability	3/21/2027**	5/17/2023

Notes: *Initial deadline to set Transit Asset Management targets was 6/28/2017 and initial deadline to set Transit Safety targets was 2/15/2021. Per FTA guidance, SCOG may choose to revise or maintain these targets when RTIP or Skagit 2045 is updated, in consultation with WSDOT and Skagit Transit.

**SCOG has 180 days to set regional performance targets after WSDOT sets revised dates for these performance targets. SCOG estimates that WSDOT will set targets on 10/1/2026.

6.1 Transit Asset Management

Regional performance targets for transit asset management were adopted by the Transportation Policy Board on June 21, 2017, and revised on July 19, 2017. Regional performance targets by asset class for this category are in the following table, and have been maintained since 2017.

Number	NAME	DESCRIPTION	REGIONAL PERFORMANCE TARGET
1	Buses	Percent of Buses that exceed Useful Life Benchmark	No greater than 10%
2	Other Passenger Vehicles	Percent of Other Passenger Vehicles that exceed Useful Life Benchmark	No greater than 10%
3	Ferries	Percent of Ferries that exceed Useful Life Benchmark	No greater than 0%
4	Non-revenue Service Vehicles	Percent of Non-revenue Service Vehicles that exceed Useful Life Benchmark	No greater than 10%
5	Administration and Maintenance	Percent of Administration and Maintenance facilities that have a Transit Economic Requirements Model condition rating below 3 ("Adequate")	No greater than 15%
6	Passenger and Parking	Percent of Passenger and Parking facilities have a Transit Economic Requirements Model condition rating below 3 ("Adequate")	No greater than 15%

The owners of assets that these regional performance targets apply to are the WSDOT Ferries Division and Skagit Transit. SCOG initially coordinated with both these agencies in 2017 to get an inventory of current assets and targets set by WSDOT and Skagit Transit. Condition information for assets and performance targets for 2018 was made available to SCOG after both agencies prepared initial transit asset management plans in late 2018. The most recent updates to condition information for assets and performance targets were completed in 2022 by WSDOT and 2024 by Skagit Transit, with each updating their transit asset management plans.

6.2 TRANSIT SAFETY

Regional performance targets for transit safety measures were adopted by the Transportation Policy Board on November 18, 2020. There are seven performance measures for which targets were set for this category. Adopted regional performance targets for fixed-routes buses and not-fixed-route buses are included in the following table.

			REGIONAL PERFORMANCE TARGET BY MODE	
Number	Name	DESCRIPTION	FIXED-ROUTE Bus*	Non-fixed- ROUTE Bus**
1	Fatalities	Five-year (2016–2020) rolling average of fatalities	0	0
2	Fatality Rate	Five-year (2016–2020) rolling average of fatalities per 100,000 vehicle revenue miles by mode	0.00	0.00
3	Injuries	Five-year (2016–2020) rolling average of injuries	2	1
4	Injury Rate	Five-year (2016–2020) rolling average of injuries per 100,000 vehicle revenue miles by mode	0.20	0.08

5	Safety Events	Five-year (2016–2020) rolling average of safety events	20	12
6	Safety Event Rate	Five-year (2016–2020) rolling average of safety events per 100,000 vehicle revenue miles by mode	1.40	0.80
7	System Reliability***	Five-year (2016–2020) rolling average of mean distance between major mechanical failures by mode	74,874	69,582

Notes: *Fixed-route Bus targets by mode apply to local and express (40X, 80X, 90X) services; **Non-fixed-route Bus targets by mode apply to paratransit and vanpool services; and ***System reliability is calculated as the mean distance between major mechanical failures.

Transit safety requirements apply to Skagit Transit, which set their initial safety targets in August 2020 and included them within their adopted Public Transportation Agency Safety Plan – a related federal requirement for performance-based planning. The plan was provided to SCOG in August 2020. Most recently, Skagit Transit updated their plan in 2024, adopting new transit safety performance targets, and provided it to SCOG in October 2024.

6.3 HIGHWAY SAFETY

SCOG – along with all other metropolitan planning organizations in Washington state – worked to set regional performance targets for highway safety earlier this year. <u>Target Zero</u>, with the goal of eliminating all roadway fatalities and serious injuries by 2030, is Washington state's Strategic Highway Safety Plan and is used as the foundation for the target setting process at the statewide level. Highway safety performance measures and targets apply to all public roadways.

The five highway safety measures are included in the following table.

Number	NAME	DESCRIPTION
1	Fatalities	Five-year rolling average of fatalities on all public roadways in the Skagit region
2	Fatality Rate	Five-year rolling average of fatalities per 100 million vehicle miles traveled in the Skagit region
3	Serious Injuries	Five-year rolling average of serious injuries on all public roadways in the Skagit region
4	Serious Injury Rate	Five-year rolling average of serious injuries per 100 million vehicle miles traveled in the Skagit region
5	Non-motorist Fatalities and Serious Injuries	Five-year rolling average of non-motorist fatalities and serious injuries on all public roadways in the Skagit region

Metropolitan planning organizations across the U.S. are given a choice through applicable federal regulations when setting regional highway safety targets. The choice is either to:

- 1. Agree to plan and program projects so that they contribute toward the accomplishment of the state DOT (WSDOT) safety target for that performance measure; or
- 2. Commit to quantifiable safety targets for performance measures in their metropolitan planning area (the Skagit region).

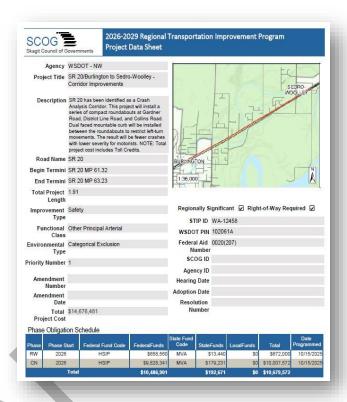

On February 19, 2025, the Transportation Policy Board took action agreeing to plan and program projects in the Skagit region so that they contribute toward the accomplishment of WSDOT statewide safety performance targets. Programming of projects that help meet statewide safety targets can be accomplished when SCOG includes projects in the RTIP that aim to reduce fatalities and serious injuries in the Skagit region.

An <u>inventory showing statewide and regional</u> <u>safety trends</u> was prepared by SCOG in 2025, using data provided by WSDOT.

EXAMPLES OF INVESTMENT PRIORITIES

The SR 20/Burlington to Sedro-Woolley – Corridor Improvements project utilizes federal Highway Safety Improvement Program funding on what has been identified by WSDOT as a Crash Analysis Corridor. A series of compact roundabouts are included in the project along with dual faced mountable curb, restricting left-turn movements and resulting in fewer crashes with lower severity.

EXAMPLE PROJECT TO IMPROVE SAFETY

6.4 HIGHWAY BRIDGE CONDITION

The condition of bridges on the National Highway System is assessed by WSDOT in the Skagit region and across Washington state. Condition is evaluated for bridge decks, superstructure, substructure and culverts. A rating system is used to classify overall condition as either "Good", "Fair" or "Poor". SCOG worked to set regional performance targets for highway bridge condition in spring 2023.

The two highway bridge condition measures are included in the following table.

NUMBER	NAME	DESCRIPTION
1	Good Bridge Condition	Percent of National Highway System bridges in the Skagit region classified in Good condition
2	Poor Bridge Condition	Percent of National Highway System bridges in the Skagit region classified in Poor condition

Metropolitan planning organizations across the U.S. are given a choice through applicable federal regulations when setting regional highway bridge condition targets on the National Highway System. The choice is either to:

- Agree to plan and program projects so that they contribute toward the accomplishment of the state DOT (WSDOT) National Highway System bridge condition target for that performance measure; or
- 2. Commit to quantifiable National Highway System bridge condition targets for performance measures in their metropolitan planning area (the Skagit region).

On May 17, 2023, the Transportation Policy Board took action agreeing to plan and program projects in the Skagit region so that they contribute toward the accomplishment of WSDOT statewide highway bridge condition performance targets. Programming of projects that help meet targets can be accomplished when SCOG includes projects in the RTIP that aim to improve National Highway System bridge condition in the Skagit region.

An <u>inventory showing highway bridge condition in the Skagit region</u> was prepared by SCOG in 2023, using data provided by WSDOT.

EXAMPLES OF INVESTMENT PRIORITIES

The I-5/Southbound Samish River – Bridge Deck Overlay project, completed in 2022, is an example of a RTIP programming decision made by SCOG linking investment priorities toward achieving performance outcomes. The bridge at this location is on the National Highway System, and was identified by SCOG in 2018 – using WSDOT bridge condition information – as the only National Highway System bridge in Poor condition in the Skagit region. Subsequently, the project was programmed in the RTIP, with the construction phase obligating funding in 2022 and construction complete the same year. Funding to construct this project came through the National Highway Performance Program.

6.5 HIGHWAY PAVEMENT CONDITION

The condition of pavement on the National Highway System is assessed by WSDOT in the Skagit region and across Washington state. Assessment of pavement condition is based on the International Roughness Index, cracking, rutting of asphalt pavement and faulting of jointed concrete pavement. Pavement is classified as either in "Good", "Fair" or "Poor" condition. SCOG worked to set regional performance targets for pavement condition in spring 2023.

The four highway pavement measures are included in the following table.

NUMBER	NAME	DESCRIPTION
1	Good Interstate Pavement Condition	Percent of pavement of the Interstate System in Good condition in the Skagit region
2	Poor Interstate Pavement Condition	Percent of pavement of the Interstate System in Poor condition in the Skagit region
3	Good Non-Interstate Pavement Condition	Percent of pavement on the National Highway System in Good condition in the Skagit region, excluded the Interstate System
4	Poor Non-Interstate Pavement Condition	Percent of pavement on the National Highway System in Poor condition in the Skagit region, excluded the Interstate System

Metropolitan planning organizations across the U.S. are given a choice through applicable federal regulations when setting regional highway pavement condition targets for the National Highway System. The choice is either to:

- Agree to plan and program projects so that they contribute toward the accomplishment of the state DOT (WSDOT) National Highway System pavement condition target for that performance measure; or
- 2. Commit to quantifiable National Highway System pavement condition targets for performance measures in their metropolitan planning area (the Skagit region).

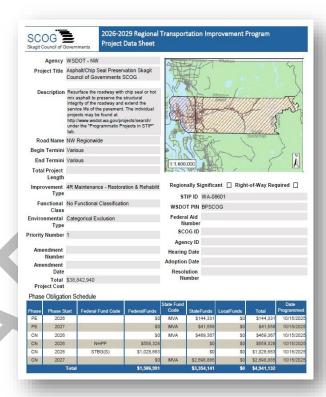

On May 17, 2023, the Transportation Policy Board took action agreeing to plan and program projects in the Skagit region so that they contribute toward the accomplishment of WSDOT statewide performance targets for highway pavement condition on the National Highway System. Programming of projects that help meet targets can be accomplished when SCOG includes projects in the RTIP that aim to improve pavement condition in the Skagit region's portion of the National Highway System.

A pavement inventory of the National Highway System in the Skagit region was prepared by SCOG in 2023. The inventory used the most recently available WSDOT highway pavement condition information for the Skagit region. SCOG also prepared a webmap in 2023 depicting pavement and highway bridge condition data in the Skagit region.

EXAMPLES OF INVESTMENT PRIORITIES

WSDOT programmatic projects are used to assist in meeting pavement related performance outcomes for the National Highway System. An example of this type of project is the Asphalt/Chip Seal Preservation programmatic project for the Skagit region. While programmed as one project in the RTIP, this is actually a grouping of projects by type of work, often referred to as "pavers" (i.e. preservation of pavement via asphalt or chip seal). This programmatic project is supported in part by Surface Transportation Block Grant Program and National Highway Performance Program funds programmed in the RTIP.

EXAMPLE PROJECT TO IMPROVE PAVEMENT CONDITION

6.6 HIGHWAY TRAVEL TIME AND FREIGHT RELIABILITY

Highway travel time and freight reliability relates to how well the National Highway System is performing for travelers. Reliability is assessed using the National Performance Management Research Data Set – a data set available to WSDOT and SCOG that is derived from vehicle/passenger probe data, such as GPS information, navigation units, cell phones and truck transponders. These data are used to compare travel times between 50th, 80th and 95th percentile speeds to ascertain reliability of the National Highway System, both for Interstates and non-Interstates. The measure for Interstate Freight Reliability is calculated using a different methodology than the other two measures.

The three highway travel time and freight reliability measures are in the following table.

Number	NAME	DESCRIPTION
1	Interstate Travel Time Reliability	Percent of person-miles traveled on the Interstate System that are reliable in the Skagit region
2	Non-Interstate Travel Time Reliability	Percent of person-miles traveled on the National Highway System that are reliable in the Skagit region, excluding the Interstate System
3	Interstate Freight Reliability	Truck Travel Time Reliability Index on the Interstate System in the Skagit region

Metropolitan planning organizations across the U.S. are given a choice through applicable federal regulations when setting regional National Highway System travel time reliability and Interstate System freight reliability performance targets. The choice is either to:

- Agree to plan and program projects so that they contribute toward the accomplishment of the state DOT (WSDOT) National Highway System travel time reliability and Interstate System freight reliability targets for that performance measure; or
- 2. Commit to quantifiable National Highway System travel time reliability and Interstate System freight reliability targets for performance measures in their metropolitan planning area (the Skagit region).

On May 17, 2023, the Transportation Policy Board took action agreeing to plan and program projects in the Skagit region so that they contribute toward the accomplishment of statewide performance targets for National Highway System travel time reliability and Interstate System freight reliability. Programming of projects that help meet statewide targets can be accomplished when SCOG includes projects in the RTIP that aim to improve travel time and freight reliability in the Skagit region's portion of the National Highway System.

Inventories of <u>highway travel time reliability</u> and <u>freight reliability</u> were prepared by SCOG in 2023 for the Skagit region using data from the National Performance Management Research Data Set.

7 OBLIGATION AUTHORITY

SCOG is subject to a statewide deadline of obligating regionally managed FHWA funds by the end of the federal fiscal year, along with all other metropolitan planning organizations in Washington state. These statewide requirements are detailed in the <u>Local Agency Federal OA Policy</u>. Washington state, along with all other states, is at risk of losing federal funds every year if statewide obligating authority targets are not met by the end of each federal fiscal year. The 2026 federal fiscal year ends on September 30, 2026.

RTIP projects programmed in 2026 are an "agreed to" list of projects that can obligate federal funding by implementing agencies, following approval of the Statewide Transportation Improvement Program in January 2026. Obligation does not occur until project sponsors enter into an agreement with WSDOT for the project/project phase programmed in the RTIP. Funds can also be "flexed" between FHWA and FTA programs in certain circumstances, but must be in the first year of the RTIP (2026) for approval of these transfers.

7.1 2026 OBLIGATION AUTHORITY PLAN

An obligation authority plan is prepared by SCOG for 2026. The purpose of the plan is to provide project tracking information and communicate expected 2026 obligations and dates to partners, including implementing agencies and WSDOT. At a minimum, the obligation authority plan includes all projects selected to receive SCOG regionally managed FHWA funds that are programmed in 2026.

The 2026 Obligation Authority Plan may include projects implementing the following gap strategies, in prioritized order, if the SCOG regional obligation authority target will not be met by March 1, 2026:

- 1. Advancing 2027–2029 Fiscally Constrained Projects;
- 2. Advancing 2030–2031 Illustrative Projects;
- 3. Advancing Contingency List Projects; and

4. Adding to Past Federal Project Awards.

Descriptions of gap strategies, along with procedures used to implement each strategy, are included in the RTIP Obligation Authority Procedures. A process to request extensions on the March 1 obligation deadline is also included in the procedures.

The 2026 Obligation Authority Plan is not incorporated into the 2026–2031 RTIP, and is revised by SCOG as necessary to meet the regional obligation authority target during federal fiscal year 2026.

7.2 OBLIGATION AUTHORITY PROCEDURES

Obligation authority procedures – including extension requests, gap strategies and appeals – have been established to clearly demonstrate how SCOG will actively manage the obligation authority process to meet the regional obligation authority target by the end of every federal fiscal year. The procedures are included in the following hyperlink.

• RTIP Obligation Authority Procedures

The RTIP Obligation Authority Procedures are incorporated as an element of the 2026–2031 RTIP.

DISCUSSION ITEM 6.A. - 2026 OBLIGATION AUTHORITY PLAN

Document History

Meeting	Date	Type of Item	Staff Contact	Phone
Technical Advisory Committee	09/04/2025	Discussion	Mark Hamilton	(360) 416-7876
Transportation Policy Board	09/17/2025	Discussion	Mark Hamilton	(360) 416-7876

DISCUSSION

The Transportation Policy Board adopted obligation authority procedures at the October 2024 meeting to guide federal project obligations this year. Revised procedures are included for 2026 within the draft 2026–2031 Regional Transportation Improvement Program (RTIP). Continuing past practice, staff recommends not including the 2026 Obligation Authority Plan as a component of the RTIP, so that the plan can be revised quickly if necessary to assist with meeting the 2026 regional obligation authority target.

OBLIGATION AUTHORITY PROCEDURES

Obligation authority procedures – including extension requests, gap strategies and appeals – are proposed to clearly demonstrate how SCOG will actively manage the obligation authority process to meet the regional obligation authority target by October 1 each year.

Following are proposed gap strategies from the procedures, in prioritized order:

- 1. Advancing 2027–2029 Fiscally Constrained Projects;
- 2. Advancing 2030–2031 Illustrative Projects;
- 3. Advancing Contingency List Projects; and
- 4. Adding to Past Federal Project Awards.

Draft Obligation Authority Procedures (from RTIP)

2026 Obligation Authority Plan

A draft obligation authority plan is prepared for 2026. The purpose of the plan is to provide project tracking information and communicate expected 2026 obligations and dates to partners, including implementing agencies and WSDOT. At a minimum, the obligation authority plan includes all projects selected to receive SCOG regionally managed Federal Highway Administration funds that are programmed in 2026.

Draft 2026 Obligation Authority Plan

REGIONAL TRANSPORTATION IMPROVEMENT PROGRAM: OBLIGATION AUTHORITY PROCEDURES

Adopted by the Transportation Policy Board on October 15, 2025

Every year, SCOG prepares an obligation authority plan. The purpose of the plan is to provide project tracking information and communicate expected 2026 obligations and dates to partners, including implementing agencies and the Washington State Department of Transportation. At a minimum, the obligation authority plan includes all projects selected to receive SCOG regionally managed Federal Highway Administration funds that are programmed in 2026.

GOALS

There are two goals of the obligation authority plan. These goals are as follows:

- 1. Agencies in the Skagit region deliver no less than the regional obligation authority target by the end of every federal fiscal year; and
- 2. The obligation authority target is met before July 1 every year, positioning the Skagit region for additional obligation authority, if the Washington State Department of Transportation determines that redistributed obligation authority can be utilized in Washington state that year.

EXTENSION REQUESTS

Projects programmed in 2026 must obligate federal funding before March 1, 2026¹. If an agency is unable to obligate prior to March 1, an extension request must be received by SCOG staff by February 25, 2026. If no extension request is received for a project, and it does not obligate before March 1, 2026, it will be deprogrammed by deletion from the RTIP by SCOG staff. A project phase may only be granted one extension.

The SCOG Admin project must obligate federal funding before August 1, 2026. This project cannot obligate until May/June at the earliest each year due to federal and state requirements of Unified Planning Work Program adoption. SCOG Admin projects are ineligible for extension requests.

GAP STRATEGIES

In any given year, up to four gap strategies may be utilized to assist with meeting the SCOG regional obligation authority target. If the target will be met without need of the strategies, they will not be used that year.

If the regional obligation authority target will not be met by March 1, 2026 (excluding the SCOG Admin project), the following gap strategies will be undertaken in order:

STRATEGY #1: ADVANCING 2027–2029 FISCALLY CONSTRAINED PROJECTS

Agency representatives with projects programmed in years 2027–2029 will be asked if their agency is willing and able to advance their project at the March 5, 2026 Technical Advisory Committee meeting. The TAC representative must be in a responsible position to commit the agency to advancing the project. The project phase should obligate federal funding before July 1, 2026. If the project phase has not obligated federal funding by the end of the federal fiscal year, it will be deprogrammed by deletion from the RTIP by SCOG staff on October 1, 2026.

¹ SCOG staff will coordinate with WSDOT Local Programs headquarters staff to make the determination of which projects have obligated federal funding before March 1. For this process, any project that has a "complete funding package" at Local Programs headquarters before March 1, as determined by Local Programs headquarters staff, will be considered obligated by SCOG, though the project may have not yet received formal authorization from FHWA before the March 1 deadline.

Agencies with projects in year 2027 will have first priority, year 2028 will have second priority and year 2029 will have third priority.

SCOG will provide a formal letter addressed to the responsible official by March 19, 2026 documenting the commitment to advance their project from 2027–2029 and obligate federal funding prior to the end of the federal fiscal year. The letter will also go to the agency's Transportation Policy Board member(s).

Any agency that commits to advancing a project using Strategy #1, and obligates funding for that project prior to July 1, will be eligible for bonus points in SCOG's next project selection process. Agencies that utilize Strategy #1, and obligate funding from July 1 through the end of the federal fiscal year for that project, are not eligible for these bonus points. The additional points will be determined by the Transportation Policy Board during the next project selection process.

If Strategy #1 does not close the obligation authority gap completely, Strategy #2 will be utilized.

Strategy #2: Advancing 2030–2031 Illustrative Projects

Agency representatives with projects programmed in years 2030–2031 will be asked if their agency is willing and able to advance their project at the March 5, 2026 Technical Advisory Committee meeting. The TAC representative must be in a responsible position to commit the agency to advancing the project. The project phase should obligate federal funding before July 1, 2026. If the project phase has not obligated federal funding by the end of the federal fiscal year, it will be deprogrammed by deletion from the RTIP by SCOG staff on October 1, 2026.

Agencies with projects in year 2030 will have first priority and year 2031 will have second priority.

SCOG will provide a formal letter addressed to the responsible official by March 19, 2026 documenting the commitment to advance their project from 2030–2031 and obligate federal funding prior to the end of the federal fiscal year. The letter will also go to the agency's Transportation Policy Board member(s).

This strategy also requires an RTIP amendment, following the RTIP amendment process to add a project to the fiscally constrained RTIP. The agency is responsible for submitting the project to SCOG through SecureAccess Washington for the April 2026 amendment cycle.

Any agency that commits to advancing a project using Strategy #2, and obligates funding for that project prior to July 1, will be eligible for bonus points in SCOG's next project selection process. Agencies that utilize Strategy #2, and obligate funding from July 1 through the end of the federal fiscal year for that project, are not eligible for these bonus points. The additional points will be determined by the Transportation Policy Board during the next project selection process.

If Strategy #2 does not close the obligation authority gap completely, Strategy #3 will be utilized.

STRATEGY #3: ADVANCING CONTINGENCY LIST PROJECTS

Agencies with projects on the June 18, 2025 prioritized contingency list will be asked if they are willing and able to advance their project at the March 5, 2026 Technical Advisory Committee meeting. The TAC representative must be in a responsible position to commit the agency to advancing the project. The project phase should obligate federal funding before July 1, 2026. If the project phase has not obligated federal funding by the end of the federal fiscal year, it will be deprogrammed by deletion from the RTIP by SCOG staff on October 1, 2026. The project will not go back onto the prioritized contingency list after deletion from the RTIP, but can compete again for funding through a future SCOG project selection process.

SCOG will provide a formal letter addressed to the responsible official by March 19, 2026 documenting the commitment to advance the contingency list project and obligate federal funding prior to the end of the federal fiscal year. The letter will also go to the agency's Transportation Policy Board member(s).

This strategy also requires an RTIP amendment, following the RTIP amendment process to add a project to the fiscally constrained RTIP. The agency is responsible for submitting the project to SCOG through SecureAccess Washington for the April 2026 amendment cycle.

If Strategy #3 does not close the obligation authority gap completely, Strategy #4 will be utilized.

STRATEGY #4: ADDING TO PAST FEDERAL PROJECT AWARDS

This strategy will be utilized, if necessary, following the March 5, 2026 TAC meeting. First, SCOG staff will calculate the obligation authority gap remaining after Strategy #3 is utilized. Second, SCOG staff will identify active projects using the most recently available information from WSDOT Local Programs Division, and reach out to agency representatives with active projects that have obligated funds, for a phase awarded SCOG FHWA funds, to inquire if the project could reasonably utilize an increase in the existing federal award amount and obligate the additional award by the end of the federal fiscal year.

As part of this strategy, SCOG staff are guided by the following principles: (1) maintain Urban Medium, Urban Small, Rural split in funding; (2) start with SCOG's most recent Surface Transportation Block Grant Program, Carbon Reduction Program and Transportation Alternatives project selection (2025) to identify active projects that can fill the obligation authority gap; (3) work backward through past project selections if projects selected in 2025 cannot completely close the obligation authority gap (e.g. 2023, 2021, 2019); and (4) equitably increase federal awards by a formula that includes, at a minimum, the amount of the past SCOG award for the phase.

SCOG will provide a formal letter addressed to the responsible official by March 19, 2026 documenting the additional federal award with the stipulation that obligation of additional federal funding should occur prior to July 1, 2026. If the project phase has not obligated federal funding by the end of the federal fiscal year, the additional award will be withdrawn on October 1, 2026. The letter will also go to the agency's Transportation Policy Board member(s).

This strategy only applies to projects that have already been competitively selected by SCOG for federal award. No new projects, or phases of projects, will be considered for adding to past federal awards.

APPEALS

Any appeal of a project deprogramming decision must be appealed directly to the Transportation Policy Board. Appeals must be received by the first Tuesday of the month by SCOG staff, to include the appeal with the Transportation Policy Board packet that goes out on the second Wednesday of the month. Transportation Policy Board meetings occur on the third Wednesday of each month. Any appeal would be considered at this third Wednesday meeting.

Implementing agencies are required to present their appeal directly to the Transportation Policy Board. If the Transportation Policy Board decides to reprogram a project, it must follow the typical RTIP amendment process, which includes a public comment period, TAC review, TPB action, WSDOT action and final action by FHWA and FTA on STIP amendment approvals. The timeline from agency appeal submission to reprogramming in the STIP will typically take three months or more.

Along with the appeal presented by the implementing agency, SCOG staff will present a fiscal analysis of the reprogramming decision on the RTIP. The first four years of the RTIP must be fiscally constrained by year, under federal law.

A project phase may only be appealed once to the Transportation Policy Board. No future appeal will be considered for the project phase. The project phase can compete again for funding through a future SCOG project selection process.

2026 OBLIGATION AUTHORITY PLAN

The following projects have until March 1, 2026 to obligate federal funding. If project funds do not obligate by March 1, 2026, they will be deprogrammed by deletion from the RTIP by SCOG staff.

AGENCY	TITLE	STIP ID	PHASE	Funds Obligated	STBG/TA/CR Funds
City of Mount Vernon	Kulshan Trail Safety Lighting - Phase 3	WA- 15134	CN	(Not Yet)	\$275,000
City of Sedro- Woolley	John Liner Road Arterial Improvements	SW59	PE	(Not Yet)	\$173,598
Skagit Transit	Sedro-Woolley Park & Ride Operator Breakroom & Rider Shelter Design	WA- 16432	PE	(Not Yet)	\$91,169
Skagit Transit	Skagit Station Fire Alarm System Replacement	WA- 16433	ALL	(Not Yet)	\$33,211
Skagit Transit	Skagit Station Parking Lot Asphalt Maintenance	WA- 16434	ALL	(Not Yet)	\$50,268

The following project must obligate federal funding before August 1, 2026, or it will be deprogrammed by deletion from the RTIP by SCOG staff.

AGENCY	GENCY TITLE		PHASE	Funds Obligated	STBG/TA/CR Funds
scog	SCOG Administration	SCOG Admin	PL	(Not Yet)	\$312,967

TOTAL EXPECTED STBG-TA-CR OBLIGATIONS¹: \$936,213 ESTIMATED OBLIGATION AUTHORITY TARGET: \$1,463,567

2026 Obligation Authority Plan

¹ Excludes \$2,089,942 in Extensions from 2025 Obligation Authority Plan expected to obligate federal funding by December 31, 2025.

Extensions

The following projects have been granted an extension to obligate federal funding by December 31, 2026. These projects will be deprogrammed with expiration of the 2026–2031 RTIP in January 2027.

To be granted an extension, any extension request must be received by SCOG no later than **February 25, 2026**. A project phase may only be granted one extension.

DISCUSSION ITEM 6.B. – 2026 SKAGIT REGIONAL TRANSPORTATION PRIORITIES

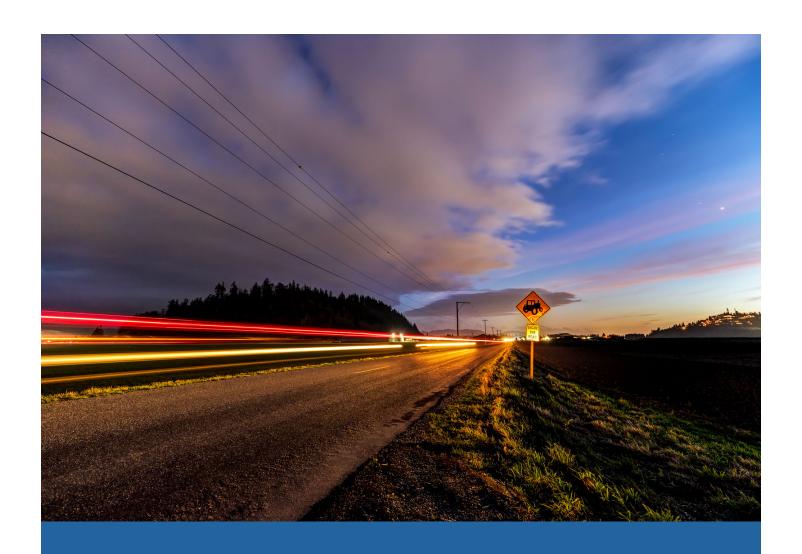

Document History

Meeting	Date	Type of Item	Staff Contact	Phone
Technical Advisory Committee	09/04/2025	Discussion	Grant Johnson	(360) 416-6678
Transportation Policy Board	09/17/2024	Discussion	Grant Johnson	(360) 416-6678

DISCUSSION

Skagit Council of Governments (SCOG) staff has been working with member jurisdictions to update the <u>Skagit Regional Transportation Priorities</u>. The Skagit Regional Transportation Priorities is an annual list of projects created as an information item for the state legislature to provide visibility for regionally important projects. The list includes information such as a project description, sponsoring agency, project cost, existing funding and funding needed. Projects have been updated based on information provided by member jurisdictions. Where applicable, programmatic funding need amounts have been updated based on best available estimates.

SCOG staff is in the process of gathering updates and finalizing the draft document prior to presenting it to the Technical Advisory Committee at their December 4, 2025 meeting for review and recommendation. SCOG staff anticipate that the Transportation Policy Board will take action on the 2026 Skagit Regional Transportation Priorities at the December 17, 2025 meeting.

Skagit Regional Transportation Priorities

January 2025

About SCOG

The Skagit Council of Governments (SCOG) is the Metropolitan Planning Organization and Regional Transportation Planning Organization in Skagit County. SCOG works cooperatively with local and tribal governments, the Washington State Department of Transportation (WSDOT), Skagit Transit and other stakeholders to plan for all modes of transportation.

SCOG Transportation Policy Board Consists of Representatives From:

- City of Anacortes
- City of Burlington
- City of Mount Vernon
- City of Sedro-Woolley
- Port of Anacortes
- Port of Skagit
- Samish Indian Nation
- Skagit County
- Skagit PUD
- Swinomish Indian Tribal Community
- Town of Concrete
- Town of Hamilton
- Town of La Conner
- Town of Lyman
- Washington State Department of Transportation

2025 Legislative Priorities

Approved by the SCOG Transportation Policy Board on December 18, 2024

Support Increased Funding for Regional Transportation Planning Organizations

Increase the Regional Transportation Planning Organization (RTPO) program budget to \$11.7 million in State Fiscal Year 2026-2027 and adjusted annually for inflation thereafter in order to achieve the transportation planning outcomes and requirements of RCW 47.80. The original biennial appropriation for the state-wide RTPO program (\$4.4 million) has not changed since the program's creation 34 years ago. RTPO's have an important responsibility to provide transportation planning in support of rural and tribal areas across the state. Duties outlined in RCW 47.80 include developing Long Range Transportation Plans, creating Transportation Improvement Plans and coordinating with local planning agencies. Since the creation of RTPO's, their duties have been expanded and RTPO's are struggling to keep up with the requirements at the current funding levels. Funding allocations have not increased over time to meet the rising costs of operations as well as the expanded responsibilities of RTPO's. SCOG supports an effort to completely assess the amount of funding required for RTPO's to perform their duties.

WSDOT Highway System Needs

Maintenance, preservation, safety, operations, seismic resilience, environmental retrofit and other needs are estimated at approximately \$61 million per year for the Skagit region. These needs are for Interstate 5 and state routes in Skagit County. Currently, 36% of these needs are funded. Environmental retrofits, principally to improve fish passage, are the highest estimated need.

Local Roadway System Needs

The vast majority of the roadway network in the Skagit region is owned and maintained by local jurisdictions. Maintenance and preservation needs for these local facilities are estimated at \$27 million per year. Of these local needs, nearly 60% are being met with available revenues (~\$16 million) and the other 40% are unmet needs (~\$11 million). Transportation benefit districts have been utilized in recent years by local jurisdictions to provide funding for maintenance and preservation, but these districts have not provided the funding necessary to address all unmet needs. Deferred maintenance due to these unmet needs are leading to further degradation of local roadways.

2025 Regional Summary

Approved by the SCOG Transportation Policy Board on December 18, 2024

New Projects

- Riverside Drive Improvements 2, Mount Vernon, \$3,900,000 project cost, \$1,000,000 existing funds
- Cook Road/ I-5 Interchange Improvements, Skagit County, \$10,154,492 project cost, \$8,471,255 existing funds
- Concrete Sauk Valley Road Stabilization, Skagit County, \$5,500,000 project cost, \$500,000 existing funds
- Rosario Road/ Marine Drive Roundabout, Skagit County, \$3,609,000 project cost, \$2,609,000 existing funds

Removed Projects

- Cap Sante Marina T-Dock, Port of Anacortes
- Library Commons Project Regional Transportation Supporting Elements, Mount Vernon

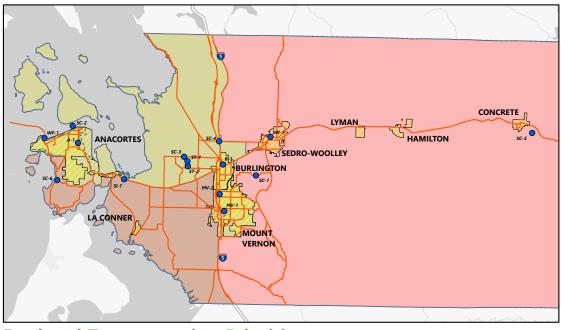

Financial Summary

	Number of Projects	Project Cost	Existing Funds	Funding Needed
Legislative District 10	4	\$54,609,000	\$2,809,000	\$51,800,000
Legislative District 39	5	\$81,998,133	\$28,250,296	\$53,747,922
Legislative District 40	10	\$348,177,740	\$149,297,852	\$198,879,888
Skagit Region Total*	15	\$433,630,381	\$171,685,893	\$261,944,573

^{*} Some projects overlap Legislative District boundaries. Legislative District totals will not match Skagit Region totals

•	Washington State Department of Transportation	Erica Nolan, John Shambaugh, Ryan
		Clemens

STAFF PRESENT

• Skagit Council of Governments Kevin Murphy, Mark Hamilton, Grant Johnson, Sarah Reuther, Anika Nelson

OTHERS PRESENT

No one else attended the meeting.

AGENDA

1. Call to Order: 1:33 p.m.

Roll Call: Roll was taken with a quorum present.

- 2. August 7, 2025 Technical Advisory Committee Meeting Minutes: Mr. Anderson moved to approve the August 7, 2025 Technical Advisory Committee meeting minutes, and Mr. Weller seconded the motion. The motion carried unanimously.
- 3. September Regional Transportation Improvement Program Amendments: Mr. Hamilton presented this agenda item. He explained that there were two Regional Transportation Improvement Program (RTIP) amendments for the month, and one administrative modification submitted by Sedro-Woolley. Concrete's amendment for the School Secondary Access project revises a project already in the RTIP. All funding for the construction phase of the project is being moved to 2029 in order to keep the RTIP within fiscal constraint for the 2025–2028 program years. Skagit Council of Governments' amendment for the SCOG Administration project revises a project already in the RTIP. The

amendment moves all secured funding to 2029–2030 to keep the RTIP within fiscal constraint for the 2025–2028 program years. The administrative modification for the Sedro-Woolley John Liner Road Arterial Improvements Project revises a project already programmed in the RTIP and does not require Transportation Policy Board action. Sedro-Woolley had moved the right-of-way phase of this project forward earlier this year, placing it on the 2025 Obligation Authority Plan. Project delays have left Sedro-Woolly unable to obligate funding before the October 1, 2025 deadline, so the project will be removed from the RTIP according to Obligation Authority Procedures. Mr. Hamilton explained that under current procedures, Sedro-Woolley can appeal to the Transportation Policy Board to reprogram the phase in the future.

Mr. Anderson motioned to recommend approval of the September Regional Transportation Improvement Program Amendments to the Transportation Policy Board as presented. Mr. Weller seconded the motion and it carried unanimously.

- 4. Project Selection Debriefing: Mr. Hamilton presented this agenda item. He gave a recap of the 2025 project selection process and explained that SCOG staff were looking for feedback on the process. He stated that the Non-Motorized Advisory Committee had suggested that they be invited to attend the project presentations next time so that they would have a better understanding of the projects before making a recommendation to the TAC.
 - TAC members then discussed challenges that they had in submitting projects for selection such as the timing with comprehensive plan transportation element updates. Also discussed were difficulties when transportation projects cause impacts to Skagit PUD waterlines.
- 5. 2025 Obligation Authority Plan: Mr. Hamilton presented this agenda item. He gave an overview of obligation deadlines and project sponsors gave updates. Mr. Hamilton thanked project sponsors that have obligated federal funds this federal fiscal year and encouraged project sponsors that have not yet obligated funds to ensure they meet deadlines in the 2025 Obligation Authority Plan.
- 6. 2026 Skagit Regional Transportation Priorities: Mr. Johnson presented this agenda item. He explained that this is a document that SCOG staff prepare every year as an information item that highlights regionally important projects in need of funding. Projects are submitted by member jurisdictions; they are not selected by staff. He stated that he will be reaching out to TAC members for updates, and that it is anticipated that the Transportation Policy Board will be adopting the priorities at their December meeting.
- 7. 2026–2031 Regional Transportation Improvement Program: Mr. Hamilton presented this agenda item. He stated that he has received submissions and will be reaching out to project sponsors with any questions or comments on projects submitted for next year. The draft RTIP will be going out later in September for review and the Transportation Policy Board should be adopting a final draft in October. He then gave an overview of the proposed RTIP.
- 8. 2026 Obligation Authority Plan: Mr. Hamilton presented this agenda item. He explained that this document is prepared separately from the RTIP so it can be updated on an as-needed basis without having to amend the RTIP. He then went over the projects in the draft 2026 Obligation Authority Plan and discussed deadlines for obligation next year.

- 9. Update on Move Skagit: Regional Transportation Plan: Mr. Hamilton presented this agenda item. He gave an update on Move Skagit: Regional Transportation Plan development and discussed the schedule. He stated that adoption of the Plan is anticipated in March 2026.
- 10. Roundtable and Open Topic Discussion: Technical Advisory Committee members provided project updates for their jurisdictions.
- 11. Next Meeting: October 2, 2025, 1:30 p.m. Mr. Hamilton mentioned that he expects the October meeting will be in person at the Skagit Council of Governments Conference Room.

12. Adjourned: 2:33 p.m.	
Attest:	
	Date:
Mark Hamilton, Senior Transportation Planner	Date.
Skagit Council of Governments	

2025 OBLIGATION AUTHORITY PLAN

The following projects had until March 1, 2025 to obligate federal funding. If project funds did not obligate by March 1, 2025, they would have been deprogrammed by deletion from the RTIP by SCOG staff. No projects were deprogrammed.

AGENCY	TITLE	STIP ID	PHASE	Funds Obligated	STBG/TA/CR Funds
(None)	N/A	N/A	N/A	N/A	N/A

The following project must obligate federal funding before August 1, 2025, or it will be deprogrammed by deletion from the RTIP by SCOG staff.

AGENCY	TITLE	STIP ID	PHASE	Funds Obligated	STBG/TA/CR Funds
SCOG	SCOG Admin 2022-2025	SCOG 22-25	PL	•	\$312,967

The following projects must obligate federal funding by September 30, 2025, or contingent funding will be withdrawn on October 1, 2025. Project sponsors are encouraged to obligate federal funding before July 1, 2025.

AGENCY	TITLE	STIP ID	PHASE	FUNDS OBLIGATED	STBG/TA/CR Funds
City of Anacortes	12 th Street and K Avenue Intersection Improvements	WA-15132	PE	(Not Yet)	\$224,000
